

REDSOCKS THREAT INTELLIGENCE LABS

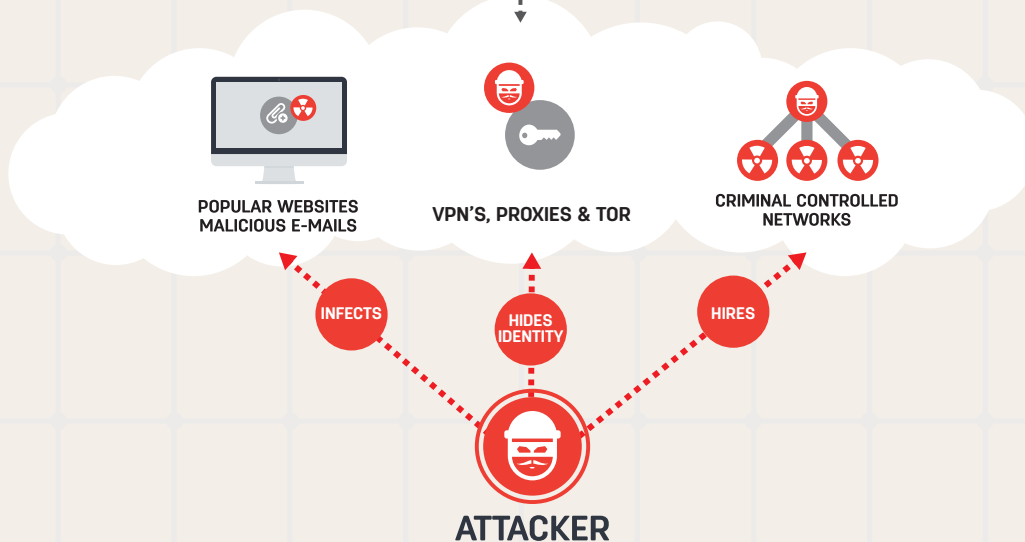

THREAT INTELLIGENCE

YOUR COMPANY NETWORK WITH REDSOCKS DETECTION TOOLS

INTERNET

WHY REDSOCKS?

THREAT

INTELLIGENCE- RECOGNIZE THREAT PATTERNS

- 27 Malware Intelligence Labs
- Heuristic engine-detecting new, previously unseen threats
- Lower TCO - Reducing costs in technical support, training and maintenance
- Plug-and-play

DETECT

SUSPICIOUS NETWORK TRAFFIC

- Non-intrusive
- OS independent
- Integrate with existing security systems
- Data retention – Analyse suspicious traffic up to 12 months
- Scalable due to IPFIX and NetFlow

RESPOND

EASY TO UNDERSTAND MONITORING AND ALERTING MECHANISM

- Forensic security tool for GDPR Regulations
- European Solution focused on Network Egress Monitoring
- Agentless - providing visibility into the security of employee-owned devices
- STIX/TAXII support
